V

THE PROBLEM

Civilization's hard problems are interconnected. Capital usually isn't.

- Housing, transit, energy, water, aviation, atmosphere, and space systems are treated as separate industries.
- Fragmented solutions fail when they can't feed each other.
- Deep tech needs patient builders — and a structure that compounds across domains.

Valhalla's answer

A holdco + 12 specialized companies (halls) that solve hard problems *together* as one civilization platform.

Blueprint-honest posture

- No fake revenue
- MRR today: \$0
- No deed sales
- Interest lists & research first
- Legal entity: forming

THE MOSAIC

Cover mosaic — 12 companies across four domains

LAND • Wolf • Holm • Demeter Movement · Habitation · Substrate	WATER • Viking • Atoll • Njord Movement · Habitation · Substrate	AIR • Eagle • Olympus • Aeolus Movement · Habitation · Substrate	SPACE • Phenix • Aether • Corvus Movement · Habitation · Substrate
--	--	--	--

Meridian (optional materials layer beneath all four domains): Earth garment systems, Venus-rated suit research, defense supply-chain concepts — blueprint & interest only. See valhallaco.org/meridian.

BUSINESS MODEL

How value is created and captured

Now (honest)

- Public mosaic & company surfaces at valhallaco.org
- Interest / email lists and research queues per hall
- Partner diligence (select halls)
- **MRR: \$0** — no fabricated revenue

Next

- Products & services per hall as each reaches readiness
- Shared distribution, narrative, and systems across the mosaic
- Holdco coordination of 12 specialized companies

Capture thesis

Value accrues as halls mature from interest → product → service, with cross-hall demand (energy feeds habitation; mobility feeds claims; compute feeds all).

We do not claim deed sales, booked flights, or capacity/ROI figures that are not diligence-ready.

THE ASK

Fundraising posture

RECOMMENDED STAGE OPTIONS

- **First Check / Pre-seed** — most honest for platform + entity formation + hall leads
- **Seed** — if positioning the mosaic as a multi-company seed vehicle

Field	Value
Raise amount	[[FILL: Raise Amount]] (suggest \$500K–\$2.5M First Check / early Seed band — confirm)
Current valuation	[[FILL: Valuation]] (planning midpoint often discussed ~\$50M for 0.1% conversations — not a closed round)
Previously raised	\$0
MRR	\$0
VC-backed	No
Burn / Runway / Cash	[[FILL]]

Use of funds (draft)

- Legal entity + holdco/hall structure
- Hall Lead recruitment (all 12 seats)
- Deepen 2–4 priority halls
- Engineering / research diligence
- Distribution of interest → product pathways

Replace [[FILL]] fields in APPLICATION.md before submit.

CLOSE

We are all kings. Kings don't wait for the throne — they build it.

Valhalla builds the foundational systems civilization depends on — movement, habitation, energy, atmosphere, space, and sovereign compute — as one mosaic.
